

MORE INFORMATION

SKIN REJUVENATION

Choose from a range of applicators to reduce wrinkles, shrink enlarged pores, improve texture and revitalize the skin for a fresh and youthful glow.

ROSACEA

Reduce facial redness and dilated blood vessels to create even texture and a smooth tone that improves the overall appearance of rosacea prone skin.

ACNE

Use a drug-free alternative to treat mild to moderate acne using advanced technology that destroys bacteria in the sebaceous gland to eliminate acne lesions.

PIGMENTED LESIONS

SharpLight's non-invasive applicators eliminate unwanted sun-induced freckles, age/liver spots and other pigmented lesions using laser and light based technologies that are safe, reliable and comfortable for your patients.

BODY SKIN TIGHTENING

SharpLight's progressive technologies are helping patients defy time by reducing the signs of aging, lax skin, folds, creases and wrinkles in a non-invasive and effective method.

STRETCH MARKS

Reduce the appearance of stretch marks using SharpLight's non-invasive, effective and reliable laser technology providing patients with a comfortable solution and long lasting results.

SKIN RESURFACING

SharpLight's Er:Yag 2940 Laser technology uses a micro-epidermal peel providing a thermo mechanical reaction replacing old and damaged layers with new rejuvenated looking skin.

FACIAL CONTOURING

A pain free and enjoyable treatment that provides beautiful and long lasting results. This safe and effective technology stimulates neocollagenesis while improving the architecture of the dermal layers.

HAIR REMOVAL

Introduce your patients to a safe, reliable and pain-free solution of removing unwanted hair while achieving maximum results in all areas of the face and body.

BODY CONTOURING

Finally a pain-free and comfortable solution to body shaping. SharpLight's innovative technology is able to shrink fat cells while simultaneously sculpting target areas.

FACIAL SKIN TIGHTENING

SharpLight's advanced treatment applicators target collagen to stimulate new fibers beneath the epidermal layers with zero downtime while leaving a long-lasting effect.

CELLULITE REDUCTION

SharpLight's advanced non-invasive technology dissolves and reduces the appearance of cellulite creating smoother and dimple free skin.

ACNE SCARS

A safe solution targeting scar tissue while reducing the appearance of post-acne scars in only a few treatments.

VASCULAR LESIONS

Effectively, safely and comfortably treat and eliminate noticeable vascular lesions including: telangiectasia, erythema and broken capillaries.

TATTOO REMOVAL

Use laser technology to target the ink of tattoos by applying localized beams of energy aimed to decompose the tattoo's pigment clusters.

CC PEEL Carbon Correcting Laser Peel AKA Hollywood Facial

SharpLight's Q-Switch technology sends energy in rapid bursts focusing on the epidermis. The carbon is blasted away by the laser energy, aiding in the removal of debris found in the pores and dead skin cells. Thermal effect produced by the laser has the ability to stimulate collagen production. Visit our website for more information: leaving flawless and youthful looking skin. A perfect way to prepare your skin for any of our amazing treatments.
